

# Clavinova

*Clavinova*

Bringing the joy of playing the piano to as many people as

# possible

The Clavinova brand made its debut in 1983, embodying the concept of bringing new types of keyboard instruments into the world. The name “Clavinova” is a portmanteau of the Latin words “clavier” (keyed instrument) and “nova” (new), and encapsulates Yamaha’s ambition to continue proposing new value for keyboards. The brand evolved into its present form with the CLP, CSP, and CVP Series that provide customers with different ways to play and enjoy music. With Clavinova pianos, Yamaha has harnessed the latest technology to create a new standard for the modern era—authentic playability and physical presence approaching levels of acoustic grand pianos, with the convenience and fun only digital pianos can provide.

# CLP Series

---

The grand piano-like feel gives you total control over the finest points of your performance style.

## For whom?

- People who focus on sound quality and elements of feel such as touch and pedal response
- People who seek a simple piano
- Players of all skill levels

CLP Series

---

# CSP Seri

---

With descending Stream Lights that show which keys to play next, anyone can master their favorite songs and have fun doing it.

## For whom?

- People who struggle to read sheet music
- People who want to practice by themselves
- Beginners, and players who have not played for a long time

CSP Series

## For whom?

- People who want to enjoy a variety of musical genres, including jazz and pops
- People who want to listen to music and sing along with family and friends
- Intermediate to advanced players

## • Benefits

- One instrument is all you need for everything from gorgeous ensemble performances to karaoke.
